SUSTAINABLE COMMERCIAL
CLEANING MATERIALS

Hello

We're Source Washrooms an independent washroom service provider. A tightknit team of 6, we know how to keep our customers happy. Now in our 20th year, we've got two decades of experience behind us meaning we know what matters to you.

We deliver reliable and timely, sustainable washroom and hygiene solutions across all industries. With our Source Supplies janitorial customer base, we know the Commercial Cleaning and Facilities Management sectors inside out, shaping how we operate our Source Washrooms division

////

What Sets Us Apart

////

We're known for dependable, high-quality service. Our customers include some of the UK's most prominent FM providers who trust us to keep high-traffic washrooms spotless, functional, and welcoming.

Sustainability at Our Core

////

We don't just talk green, we live it. Sustainability is at the heart of our services and decisions. From choosing responsible suppliers to providing reduced carbon products, we aim to minimise our footprint and inspire change across the industry.

We're continuously challenging ourselves to lead the way in combining top-tier service with planet-conscious thinking.

Embracing Technology

////

We know how vital communication is in this line of work. You need to know when we're visiting your site, what we're doing and when we've been.

It sounds simple and it is. However, we're only human and that leaves potential for mistakes. That's why we embrace opportunities to let technology ensure consistency.

We partner with BigChange, a software platform that enables you to keep fully informed about your servicing with us.

Dave & Ollie
Source Founders

Energy from Waste Smarter Hygiene Disposal

At Source Washrooms, we give hygiene waste a second life. After collection, it's taken to a sorting hub where materials are directed towards either recycling or recovery. From there, we work with local Energy from Waste (EfW) facilities that convert this waste into renewable energy, used by us all the power homes, businesses and the places we go.

It's all part of our ongoing commitment to sustainability, designed to shrink our environmental impact at every available step.

Source Hygiene transports the waste to Grundon Waste Management (Knowl Hill, CBDU147323).

Waster Carrier License:
CBDU166692

Eco-Friendly Hygiene Units

Hygiene waste disposal doesn't have to come at a cost to the planet

Our main range of hygiene bins is made entirely without virgin plastic, designed exclusively for Source Washrooms, and can be fully recycled after use.

Available in sleek black or grey, they're ideal for organisations putting sustainability front and centre.

Key features

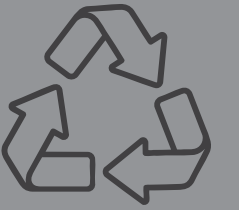

- Reversible lid for flexible cubicle placement
- Smooth contours for easy cleaning
- Pedal or auto-sensor options (grey only)
- Fully recyclable

Capacity:

23 litres or 15 litres

Finishes:

Black, Grey

100%
RECYCLED
MATERIALS

Hygiene Services with Discretion and Dignity

Standard

Capacity:

23 litres

Finishes:

White, Black & Chrome, Black & Silver

*To ensure the most discreet
and hygienic service possible,
your hygiene units remain
in place throughout your
contract with us*

Our team clean them thoroughly during each visit whilst we change the liner.

We use SaniCare scented antimicrobial liners as standard which are Biomaster protected to minimise bacterial growth. This technology helps combat odours and keep your washrooms fresh.

Mini

Capacity:

15 litres

Option:

Pedal or touch-free auto model available

Finishes:

White, Black & Chrome, Black & Silver

Supporting Male Hygiene

Incontinence affects men of all ages, and we're committed to removing the stigma by offering discreet hygiene units for male washrooms to promote inclusive hygiene.

Hygiene Bag Dispensers

Capacity:

50 bags

Notes:

Discreet & aligned with your service schedule

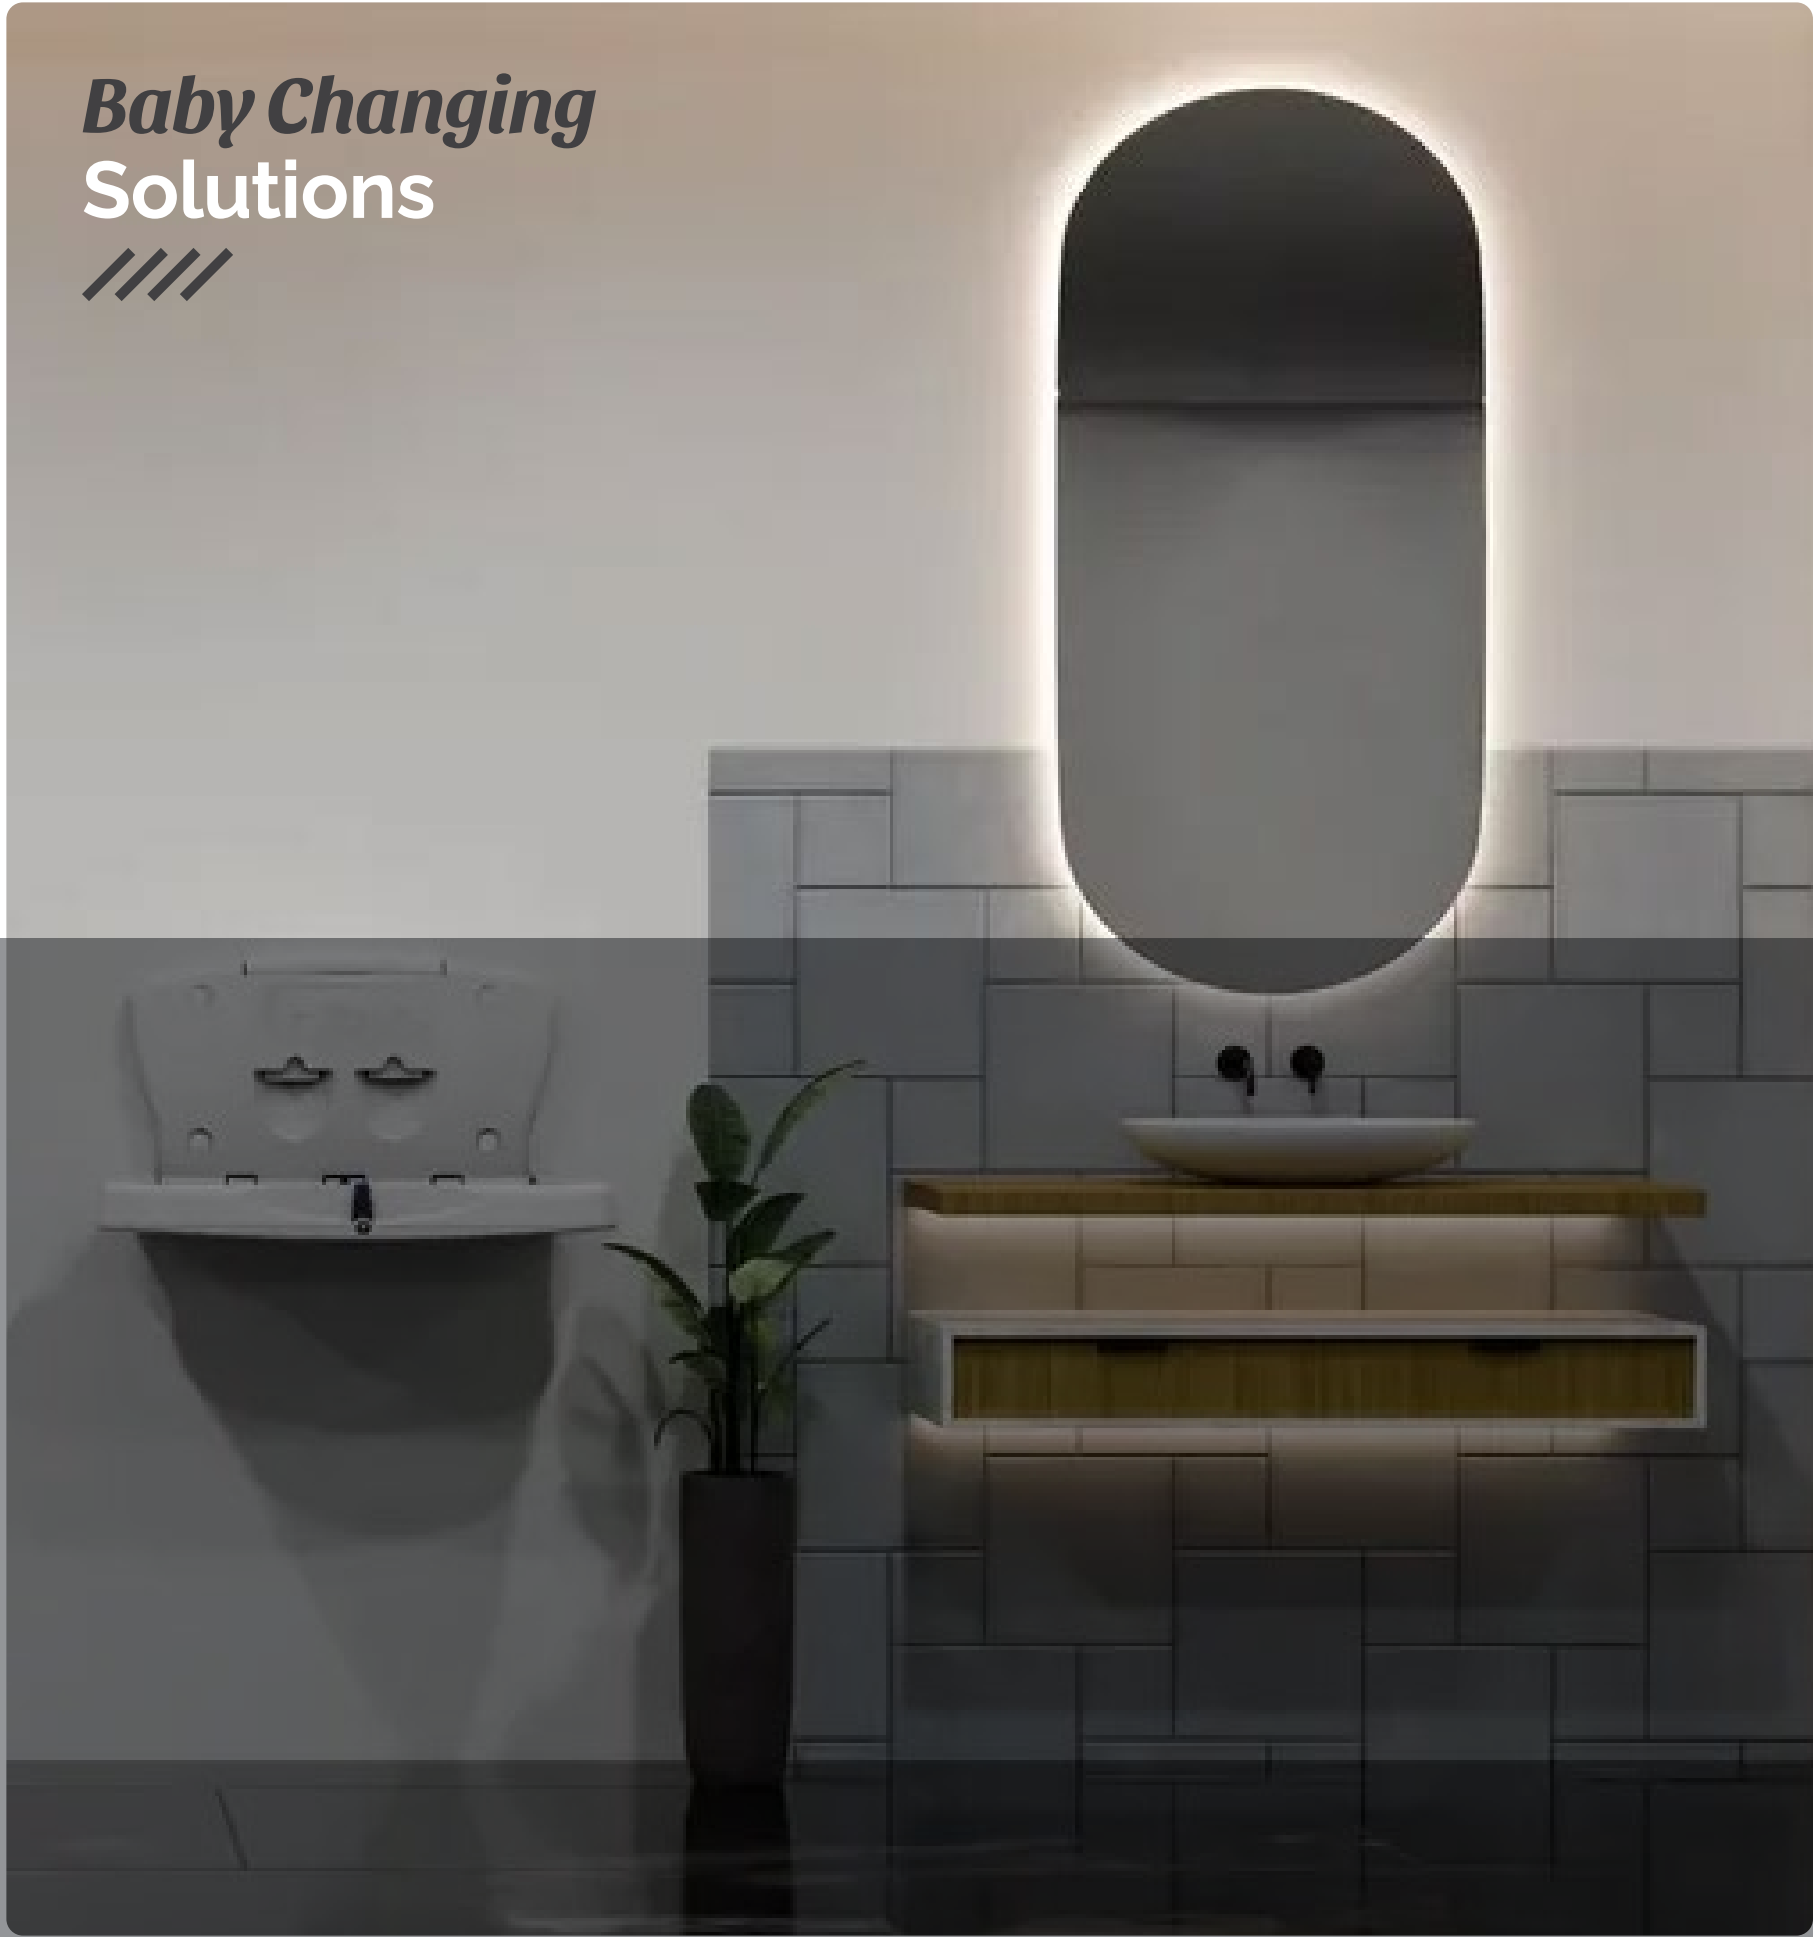

Finishes:

Chrome, Silver, White, Black

Baby Changing Solutions

////

Our nappy disposal service ensures baby changing areas are clean, safe and environmentally responsible

////

Waste is diverted from waterways and into our EfW recovery process.

Bambina Bin

Capacity:
50 litres

Operation:
Pedal-operated

Features:
Large opening, easy to clean

Finishes:
White, Grey, Yellow

External Waste Bin

Capacity:
360 / 240 litres

Operation:
Lockable

Features:
Heavy-duty design to meet compliance

Air Care
Cleaner Air
////

- 100% recyclable refill

Vibe Pro

Key features

- HVAC compatible, wall mountable or freestanding
- Near-silent operation
- 1000m³ coverage
- Range of seasonal and signature scents

Positive Washroom
Experience

////

Our air care systems use solvent-free, VOC-free, Carbon Trust-approved technology to deliver clean, long-lasting fragrance.

AIRsteril Air Purification Services

Positive Washroom Experience

In our professional opinion, a washroom is not truly fresh without an AIRsteril. That's not an upsell. It's a fact born out from the reality that air fragrance is not air purification. For all the scents in the world, there is no better clean than removing odours from the source.

AIRSteril air purification systems guarantee constant infection and odour control by treating the root cause and destroying bacteria, viruses or mould, ensuring the air and all exposed surfaces are sanitised.

The systems generate ultraviolet germicidal irradiation (UVGI), which uses ultraviolet light to kill or inactivate microorganisms, resulting in greatly improved air quality for a much more pleasant washroom experience.

Smelly men's washrooms are avoidable with the help of this low maintenance solution. We'll visit once per year to switch out the bulbs to ensure fresh smelling washrooms 365 days per year (assuming they're being cleaned daily!)

Our team can advise on the most suitable Airsteril for your washrooms.

Washroom Models

Key features

- Eliminates unpleasant odours
- Controls harmful bacteria and viruses in the air and on all exposed surfaces

Urinal & Cubicle Services

////

*P-Wave
Slant 6 Urinal
Screen*

*Deep Descaling
Programme –
Urinal System*

*Urinal
Sanitiser
Unit*

*Toilet
Seat
Sanitiser*

Key features

- High fragrance load for a long-lasting fresh aroma
- EcoPure® additive enhances faster biodegradation
- 'Splash-eliminating' angled bristle design (as seen on Source YouTube)
- Contains beneficial bacteria for deodorising
- Waterless urinal compatibility
- Lower VOC's
- Recyclable where facilities exist

Key features

- Eradicate foul odours from uric crystalized pipes
- Uses no caustic, harsh products
- Improves flow rate of urinal flushes

Key features

- Direct injection to cistern
- Fully programmable
- Maintains hygiene at every flush

Key features

- Foam dispenser kills 99.99% of bacteria
- Economical with 30% less usage
- Meets EN 1275 & EN 1040 standards

Partnering with the NHS

////

Our urinal mats are already used at tens of thousands of venues across the UK and present a unique, high-impact opportunity to share an awareness message that has the power to save lives.

We're working together with NHS England to deliver an important health message and to encourage body awareness.

Water Management That Works

*Our urinal water-saving
devices cut usage by up to
90%, balancing hygiene and
environmental responsibility*

Standard Unit

Key features

- Up to 80% water savings
- Flush limits by time or day
- Battery-powered and easy to install

Sensor Systems

Key features

- Timed or motion-sensor activated
- Optimises flushing based on footfall
- Save up to 90% on water use

Vending Services

Our vending services provide an effective and convenient way to ensure your washroom users never need to worry about accessing period products

Dual-Vend Unit

Key features

- Suitable for all washroom environments
- Dual column vending machine
- Secure, manual operation
- Robust and high security casing

Dimensions:

260mm(w) x 900mm(h) x 190mm(d)

Finishes:

White and Silver

Auto-Vend Unit

Key features

- The perfect vending unit for washrooms with limited space
- Practical and robust design
- Compact and sleek design
- Robust and high security casing

Dimensions:

260mm(w) x 900mm(h) x 185mm(d)

Finishes:

Black, White and Silver

Period Services

Period products should be accessible to everyone. We have a long way to go but we are championing this change of mindset

Grace & Green provide a full range of organic period products and 'free-vend' dispensing services, so you can provide your washroom users with access to free, sustainable period products.

Free-Vend Unit

Key features

- Hold up to 70 pads and 350 tampons
- Easy to refill from top
- Metal rather than plastic unit
- Can be recycled

Dimensions:

280mm(w) x 500mm(h) x 100mm(d)

Finishes:

Other colours available

Pads on a Roll

We're proud to have been one of the first in the UK to identify Pads on a Roll as a change for good as they arrived from the US.

Pads on a Roll provides period products within the privacy of the cubicle.

With two dispenser options and an organic offering, Pads on a Roll fits into any washroom.

Plant-based (non-plastic) dispenser

Key features

- Eco-friendly and fully recyclable
- Compact design to fit washroom surfaces
- Fully customisable – logo and colour
- Perfect for washrooms where wall-mounted units are unsuitable

Dimensions:

145mm(w) x 95mm (h) x 100mm (d)

Finishes:

Available in the colour of your choice

Ethical Period Care

Key features

- Certified organic cotton tampons and bamboo pads
- Zero pesticides, dyes, bleaches or other toxic chemicals
- Recyclable or biodegradable packaging, including tampon applicators
- Grace & Green branded metal counter-top tins available

Laundry Services

Matting is more than what has always been known as 'dust control mats'

An entrance mat can set the tone for the building, not only helping to keep it clean and protected but providing a good first impression and sending brand messages, not to mention reducing the risk of slippages.

Key features

- Collected, replaced and laundered
- Colours and sizes to fit your needs
- High quality nylon pile and rubber construction
- Accurate colourways and branding for high visual impact logo mat

Laundry services and hygiene are too crucial to be outsourced to an FM supplier

We understand that no two laundry requirements are the same. That's why we offer a personalised approach, working closely with each client to develop a schedule that best suits their needs, providing a cost-effective and reliable service.

Key features

- Bath Sheets
- Table Cloths
- Napkins
- Gym Towels
- Face Cloths

Our Washroom Team

////

*Without our loyal team,
the high touch and reliable
service wouldn't happen*

////

We're proud of our retention,
creating an all for one, one for all
attitude to team work and going extra
miles for customers.

Byron, Mags, Paulina, Tomasz, Sue
and Nico are your trusted Washroom
Services team at Source.

These fantastic people discreetly
visit our customer sites all over the
South East region of the UK servicing
washrooms.

*We're proud that 40% of
our team is made up of
women who lead by
example every single day.*

////

Byron
Washroom Services Manager

Byron is as laid back as they
come but also has unique work
ethic that sees him go far and
wide for Source.

The softly spoken Northern
Irishman is a long serving
member of the team and enjoys
18 holes when he's not looking
after Washroom Services.

Mags
Source Washroom

Mags is incredibly hard working
and never seems to stop! An
integral part of our washroom
services team who leads by
example and is respected and
liked in equal measures by
customers and colleagues.

When Mags isn't working, she is
renovating her house!

Nico (Przemyslaw)
Source Washroom

Affectionately known as 'Niko',
we've never seen him without a
smile on his face.

As with all of Byron's Source
Hygiene team, a strong work
ethic is ever-present with Niko
and he is a dream to manage.
He does a great job with zero
fuss and is a credit to Source.

Paulina
Source Washroom

Having worked in washroom
services for PHS for several
years, Paulina came to join her
friends at Source Hygiene and
has been a brilliant addition to
the team.

Tomasz
Source Washroom

Tomasz takes his work seriously
and completes it with pride. One
of the more private members of
Team Source, Tomasz is a key
player in the Source Hygiene
Washroom Services machine.

Our Testimonials

“We’ve partnered with Source for over 10 years. Why would we not use a best-in-class service? They are trusted to deliver consumables and washroom services to our entire portfolio of customers which speaks volumes for their service levels.”

“We have worked alongside Source for nearly 20 years who have delivered excellent service and reliability. The team are always responsive to our requests and serve as a key business partner going on the journey with us.”

“Source have been a valuable supplier to the college for over a decade. The team are highly competent and professional, and their service is nimble and responsive. Drivers are always very friendly and helpful too which goes a long way. Absolutely recommend!”

“Source have supplied both consumables and washroom services to Balliol for many years. We are continually satisfied with their performance, reliability, and professionalism. Even when benchmarking, they still come out on top and therefore would highly recommend their service.”

Give us
a Go!
////

With the best part of 20 years experience running Washroom Services, Source knows what you, the customer, wants and we manage this division accordingly.

What Sets Us Apart

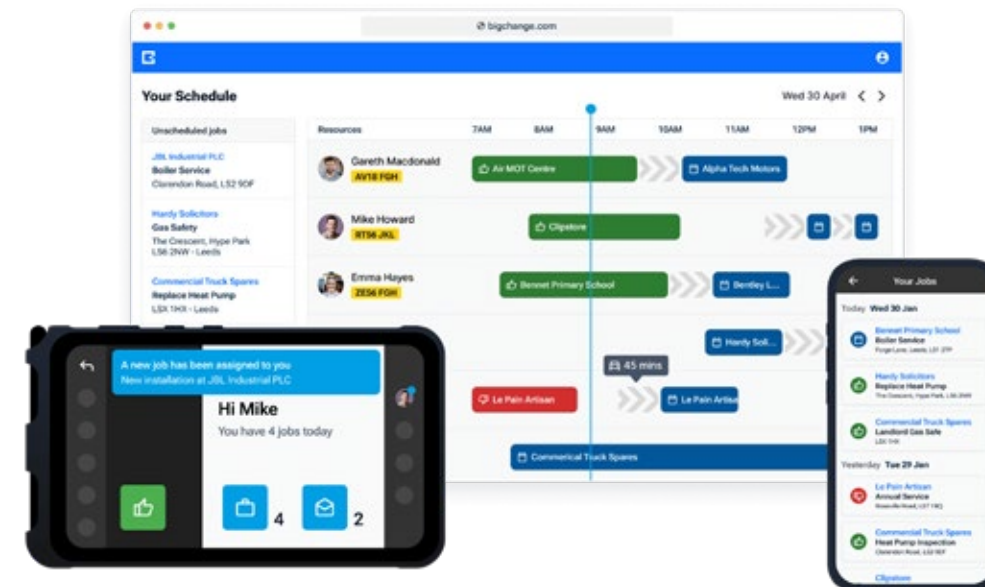

This division was born out of a requirement by our customers for a reliable and dependable washroom service without complicated contracts.

- Flexible invoicing - you tell us how and when you need your invoice
- Designated Service Date
- Advanced DBS checked personnel
- Short, flexible contracts
- Sustainable product options
- Clear and concise communication for each service (with proof)
- High standard of cleanliness of equipment
- Reliable servicing - not turning up and issuing a credit is **never** acceptable!
