

# CATERING DESCALER

UNIT SIZE	1L	5L
SKU	61800BO PVH	61800CO PVH

### ABOUT THIS PRODUCT:

The ultimate solution for keeping your commercial kitchen's appliances and equipment in top condition. This powerful descaler is designed to remove limescale and mineral buildup from coffee machines, steamers, kettles, and other kitchen appliances that use water.

Regular use of our catering descaler can help extend the life of your appliances, improve their performance, and reduce the risk of breakdowns and repairs.

Highly concentrated for highest cost savings and lowest carbon footprint.

### HOW TO USE:

Dilute with water according to the area that is being cleaned. Dilution rates can be found on the label. Leave a few minutes contact time whilst agitating debris, before rinsing off.

### WHAT SHOULD I USE IT ON:

- ✓

Dishwasher Machines.  
Kettles.  
Drains.  
Pipes.  
Washing Machines.
