

COLOUR CHANGE

We are excited to share that we have recently made some enhancements to our product formulas by becoming Ecocert Ecodetergent Certified and they are now here!

In our ongoing commitment to quality and sustainability, we've evolved to using more than 95% natural ingredients. As a result, you may notice some slight changes in the appearance of our products.

One of the key changes is the label, fragrance and colour.

The fragrances have changed to naturally derived and will change to:

Floor & Wall Degreaser

Fragrance: The peel of lemon rind.

Multi Purpose Cleaner

Fragrance: Derived from Mandarin and Bergamot

Washroom Cleaner

Fragrance: The peel of Citrus limonum & Eucalyptus globulus

Grease Trap & Drain Maintainer

Fragrance: Eucalyptus globulus

The colours will appear lighter or softer than what you are used to, due to the natural dyes used, particularly when diluted.

Rest assured, this is simply due to the natural dyes we now use. These changes in appearance do not affect the performance or effectiveness of the product in any way.

As part of this exciting transformation, we are also updating our product labels to reflect our commitment to sustainability. Our new labels will proudly showcase the Ecocert logo, highlighting our Ecodetergent Certification and reinforcing our dedication to using more than 95% natural ingredients. This fresh design provides a clear and transparent way for consumers to recognise our mission to drive sustainable change.

We thank you for your continued support of our mission to drive sustainable change, with the first range of products of commercial cleaning products in the UK certified by Ecocert Ecodetergents.
