

Everyday Bladder Support

GRACE & GREEN

Grace & Green exists because someone saw the state of period care and cared enough to make a change. That person was our founder, Fran, who worked in the water sanitation industry for a decade. She witnessed first-hand the impact period products have on our oceans, water systems and wildlife. She knew something had to change. Now, our mission extends to bladder support, ensuring everyone has access to the products they need.

Grace & Green was born. We craft the highest quality period & bladder care, without compromising planetary or human health.

GRACEANDGREEN.CO

WHO WE ARE

SUSTAINABILITY

An antidote to unethical industry titans, we are the highest ranking B Corp in disposable period care. From carbon neutrality to biodegradable packaging, Grace & Green tackles climate change with uncompromising innovation across both period and bladder care. We see the urgency, not just the trends.

ACCESS

Making access to safe, sustainable bladder care products a basic right. Through our Dignity For All scheme and in partnership with not-for-profits, we work to bring products and dignity to the people who need it the most. Equal access is at the core of what we do, and we show up for all bodies.

KNOWLEDGE

We start conversations, help people understand their bodies and break taboos. Educating everyone about bladder health breaks silence, fosters informed choices about bladder care, and dismantles the damaging shame that restricts our control over our bodies.

Our product range.

BLADDER PROTECTION PADS

For leaks and light incontinence, our range of ultra-absorbent pads feature a 3D leak barrier to lock in moisture and a charcoal core that helps reduce odours. With wings for a secure and comfortable fit, they're designed to keep you feeling fresh and confident all day long.

BLADDER PROTECTION SHIELDS

For leaks to light incontinence, Grace & Green bladder protection shields are engineered for the male anatomy and fit comfortably in boxers or briefs. They offer a secure fit for unmatched comfort and confidence when it matters most. They feature a super-absorbent charcoal core that locks in moisture and reduces odours.

Male bladder support shields

Crafted with bamboo and packaged in compostable wrappers to minimise your environmental impact. Designed for a secure, comfortable fit, free from chlorine, synthetics, plastics, pesticides, artificial dyes or fragrances.
