

ICE SBV Stick Vacuum

source

The new ICE SBV is a battery powered stick vacuum. Ideal for on-demand, ad-hoc, impulsive vacuuming.

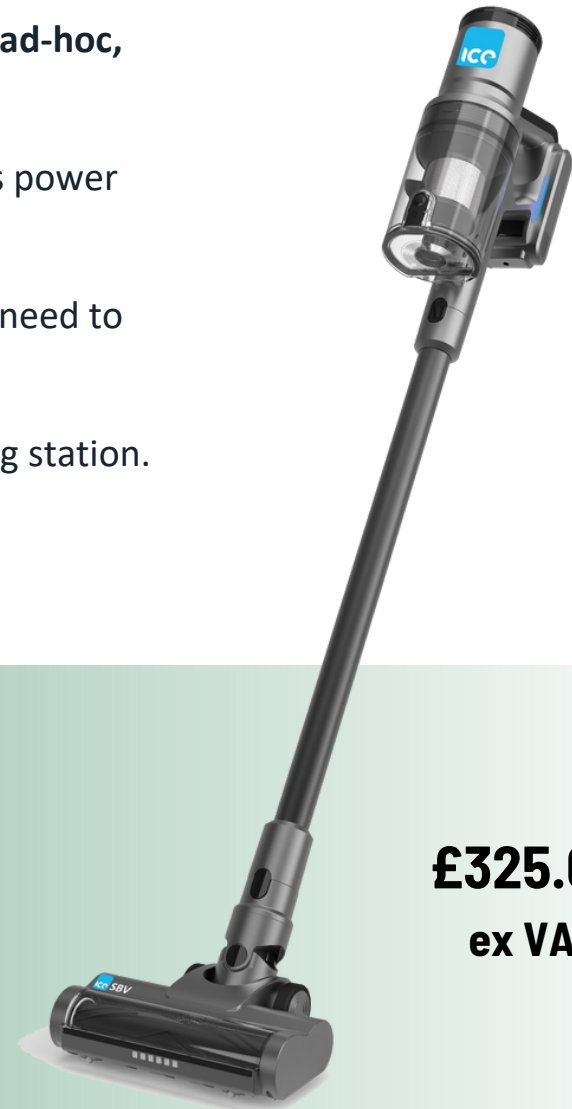

Its infrared sensor detects the dirt you can't see and automatically increases power when required to elongate the battery life.

Easy to operate and maintain with a touch control panel. On/off button, no need to hold down when operating (unlike others!).

Includes two batteries, detail tool, upholstery tool and wall mounted docking station.

Removable brush for easy maintenance.

- Run Time 45 mins - 1 hr
- 4 Hour charge with Lithium-Ion batteries
- Lightweight & agile
- Perfect for all environments
- Minimise downtime
